FLAILMASTER

FLAIL MOWER

FLAILMASTER 150 - 210 - 250

Optimised mowing performance in tall grass and dense vegetation – with the new Flailmaster.

The new Flailmaster is designed to further improve the performance of previous models and offers excellent cutting power for large and dense vegetation. The flail mower ensures an even distribution of the cut material, resulting in a high-quality finish comparable to that of a mulching mower.

Transmission suitable for high-powered tractors, with PTO shaft and overrun clutch.

Optional: Hardox wear plate and counter blade for a finer cutting result.

New 500 mm hydraulic side shift – robust and compact, with self-lubricating bearings.

Reinforced mower deck for increased rigidity on slopes – Integrated belt protection – New anti-clogging profile.

Skids in Hardox, bolted.

Large-diameter rear roller with internal bearings – 3 height adjustment positions.

Flails 50 × 10 mm or Y-flails, mounted with Ø 16 mm bolts.
